Often a person puts off taking needed tonic because of the disagreeable taste of most tonic preparations.

Therefore the ideal tonic should be pleasant to the palate. Walther's Peptonized Port may justly claim the title of the ideal tonic, for in addition of being highly agreeable to the taste, it is a strengthener of greatest value, combining port wine, itself a tonic of noted efficacy, with pepsin which is nature's own digestive agent.

This preparation restores lost vitality and cures nervous prostration, indigestion and all kindred ailments.

## CLOVERPORT BOY COMMANDS.

First Lieutenant David Murray in Charge of Situation in Breathitt County.

First Lieutenant David Murray, Jr. Battalion Quartermaster, Second Battalion, Second Infantry, National Guards, of Kentucky, is acting commanding post at Jackson, Breathitt county, Monday, Tuesday and today he has been in charge of the situation in Breathitt county in the absence of Capt. Longmire, post commander. When Capt. Longmire returns, Lieut. Murray will be assistant provost marshal, which is another name for the office of acting commander of the post. Lieut. Murray is a son of Adit Gen. D. R. Murray and a Cloverport boy. He is only twenty years of age and it is quite an honor to hold the position in bloody Breathitt that he does, when the situation there is so strained.

On Sept. 28, Lieut. Murray was ordered by Quartermaster General W. H. Miller, of the United States army, to report at West Point immediately. He reported on Sept. 29 at Frankfort for further orders and was ordered to report back to Jackson. There he got leave of absence to visit his brother and sister, H. C. Murray and Miss Aliene Murray, in this city and arrived here last Wednesday morning. Saturday morning he left Jackson and reported back Sunday, Monday he took command of twenty-five men and one commissioned officer stationed there. During the first trouble in Jackson there were 250 soldiers on guard but about a month ago this number was reduced to 25.

In speaking of Breathitt county Lieut. Murray says:

"The situation in Breathitt county is about the same as it was May 24. On an average of one arrest a day is made."

"The other day we went twenty miles to get a man who had thrown a stone at another man and killed him without cause. A number of 'blind tigers' have been raided. The people want the troops to remain and have petitioned Governor Beckham to have them stay until Christmas, if not longer."

## Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by Short & Haynes.

## Worst Trip in Boat's History.

The trip of the packet Tarascon from Owensboro to Louisville the first of last week was the worst in the history of the boat, according to Capt. Fredrick Zoll. The boat was delayed twenty-four hours and its late arrival caused much anxiety. The chief delay was caused by one of the heaviest fogs ever known on the Ohio river. Objects a foot from the boat could not be made out, and it was necessary to tie up at Stephentown and blow danger whistles at intervals of a minute to prevent collision.
